Preuve et attestation de développement professionnel

Sexto 1 - Explorateur

Question 1 - Qu'est-ce que je retiens de la méthode d'intervention Sexto ?

That the procedures are clear and concise. That all school intervenors will intervene following the Sexto tool kit. In the same way. That these situations will be managed and dealt with in a concise uniform manner.

I am clear on my role and responsibility in my intervention with the guidance of the Sexto Kit. That in following the guidelines and working efficiently can support the well being of the victim and those involved. Stopping the wave of sharing of information is very important.

It is a very delicate topic and needs to be handled with care and wisdom.

Question 2 - Qu'est-ce que cette formation va changer dans mes futures interventions ?

I am very excited about this training. Because over the years we have been left on our own to intervene and contact the local Police. Because we are a Regional high school there was not a clear understanding of which jurisdiction we were to deal with.

With the Sexto training the procedure and handling of information is clear.

This not only gives the victim and others security but also those intervening.

Question 3 - À quoi vais-je faire particulièrement attention auprès des élèves lorsque je devrai intervenir ?

I will pay close attention to following the procedures set out in the Sexto Kit. To promptly and efficiently intervene and share information following the protocol set forth in Sexto Kit, to limit the spreading of images. To ensure the integrity and well being for all those involved and increase their sense of security by reassuring that matters will be handled effectively and confidentially. No images are to be viewed, the questionnaire in the Sexto kit will provided the information needed by the trusted agents.
