

Preuve et attestation de développement professionnel

Sexto 1 - Explorateur

Description:

L'utilisation de la trousse SEXTO est réservée exclusivement aux intervenants scolaires du Québec pour des raisons légales. De plus, son utilisation doit préalablement avoir fait l'objet d'une entente entre le service de police qui dessert le territoire où se situe l'établissement scolaire et le Directeur des poursuites criminelles et pénales (DPCP). Veuillez noter qu'un badge d'attestation sera attribué uniquement aux intervenants des établissements scolaires se trouvant sur un territoire où une telle entente a été conclue. Avant de compléter la formation, il vous est donc recommandé de valider cette information auprès de votre direction ou de votre service de police...

Badge attribué à : Shawnee Chartrand

Preuve et attestation de développement professionnel

Sexto 1 - Explorateur

Question 1 - Qu'est-ce que je retiens de la méthode d'intervention Sexto ?

That only those who have an entente with the police in the schools territory can lawfully use the kit. That in order to use the Kit we need to follow the complete training. That we NEVER ask to see any photos or videos. That we can only use the kit for those circumstances when an incident occurs in the school with our students directly. That prevention and intervention is the approach we want to use with our students in most cases as we are in the field of education and must remember that our students all need our support. That if the act is malicious and the intent was to harm we meet with the perpetrator, confiscate their device and contact the police.

Question 2 - Qu'est-ce que cette formation va changer dans mes futures interventions ?

I currently share the philosophies of project SEXTO but the training will allow me to be guided in any interventions with regards to sexting. The training will also show how the schools and police departments can work together to help educate and protect our youth. As an employee or Complementary Services at Riverside School Board I am often called upon to help support situations of sexting (I hold the Sexuality Health Education Dossier). By being part of the SEXTO training I can help support my schools (who have an entente with the police) when handling a sexting situation.

Question 3 - À quoi vais-je faire particulièrement attention auprès des élèves lorsque je devrai intervenir ?

I will pay particular attention to the procedures in the kit so that I am handling myself according to the procedures laid out by the professionals, to address both the emotional needs of my students and the law. I will also continue to work with all my students, victim, perpetrator, and bystanders to ensure that everyone is represented and can hopefully learn and move forward as responsible members of our society.
