Sexto 2 - Architecte

Description:

L'utilisation de la trousse SEXTO est réservée exclusivement aux intervenants scolaires du Québec pour des raisons légales. De plus, son utilisation doit préalablement avoir fait l'objet d'une entente entre le service de police qui dessert le territoire où se situe l'établissement scolaire et le Directeur des poursuites criminelles et pénales (DPCP). Veuillez noter qu'un badge d'attestation sera attribué uniquement aux intervenants des établissements scolaires se trouvant sur un territoire où une telle entente a été conclue. Avant de compléter la formation, il vous est donc recommandé de valider cette information auprès de votre direction ou de votre service de police...

Sexto 2 - Architecte

Question 1 - Comment puis-je résumer les étapes de la méthode Sexto?

In summary of the Sexto method, you first find out and listen to what the presenting situation is. I would decide if the situation would require using the the sexto method, and if it does, I would begin first with meeting the people involved individually. I would support and complete the evaluation grid.

Remembering not to ever look at the image, having the students turn off their own device then confiscate it. If the instigator is at the school, meet with him or her if it seems like it is not a malicious act. If it is suspected to be a malicious act, confiscate phone, do not do the evaluation grid and call the police. Parents should be alerted that there was a situation involving their child. The police should be contacted as well as soon as possible.

Question 2 - Qu'est-ce que je retiens des 3 mises en situation présentées?

I will use these 3 situations presented as examples to implement in real life, and when it is appropriate to use the Sexto method, and how to use it effectively. I used these scenerios as a way to learn how every situation may differ, and what to do in each situation. The scenerios made the training more realistic, and a way to learn hands on on how to proceede effectively.

Question 3 - Quelle étape me semble la plus délicate lors de l'application de la méthode Sexto?

I would find that the most delicate step during the intervention would be when meeting with victim. It is most likely a stressful and difficult situation, which would require the intervenor to take the appropriate steps while providing the victim with support in a non judgemental way.
