

Preuve et attestation de développement professionnel

Sexto response kit 1 - Explorateur

Description:

For legal reasons, the use of the SEXTO kit is reserved exclusively for Quebec's education sector personnel. In addition, its use must be the subject of a prior agreement between the police force that serves the territory where the school is located and the Director of Criminal and Penal Prosecutions (DCPP). Please note that an attestation badge will only be attributed to personnel at education institutions in a territory where such an agreement has been concluded. Before completing the training program, it is therefore recommended that you validate this information with your superiors or your police force. This training program is designed to equip education sector personnel to act quickly and efficiently with the students in their institution who are involved in a sexting situation. Sexting among teenagers can be defined as the shared production, distribution, and redistribution of sexual content (photos, videos, etc.) via information and communication technologies. At the end of the Explorer level of this training program, you will be able to understand the phenomenon and guide those involved in the management of cases that could be brought to their attention through an intervention tool, namely the Sexto kit. At the Architect level, through interactive organized activities, you will be presented with three fictional cases of sexting in order to consolidate new learning and validate your interventions. The creation of the Sexto kit was made possible thanks to the collaboration of the City of Saint-Jérôme (Quebec), the Director of Criminal and Penal Prosecutions (DCPP), the Canadian Centre for Child Protection, the Crime Victims Assistance Centre (CAVAC), Commission scolaire de la Rivière-du-Nord, and Académie Lafontaine. The Sexto Kit training program was developed by CADRE21 and carried out thanks to the participation of Fédération des établissements d'enseignements privés (FEEP) and funding from the ministère de l'Éducation et de l'enseignement supérieur (Quebec ministry of education and higher education, or MÉES).

Sexto response kit 1 - Explorateur

Question 1 - What have I learned from the Sexto intervention method?

The biggest take away for me from the Sexto intervention method was ensuring the acts do not continue and that there is more support available to administrators than we are aware of. Many times we feel like parents want us to solve all issues immediately with regards to sexting and social media in general. This kit will help us know what to do step by step to ensure that the school, the parents and the students know the steps being taken to ensure the events do not continue and all youth are protected.

Knowing what the is considered sexting, child pornography in the eyes of the law. What type of incidents should be followed up with a Sexto kit will make my job a little easier.

Question 2 - What will this training change in my future interventions?

This training will change how I proceed with the investigation and knowing when I need to do a sexto intervention. I have relied on the advice of my community officer, having this training will also help them better guide me on what steps to follow. It will make the partnership between the school and my community officer easier. I will also help me to guide parents, as a lot of the time we do not know what the right thing to say to parents is and can make situations even more stressful.

Question 3 - What will be my focus with the students when I have to intervene?

My primary focus will be, and will always be, the health and safety of every child in my school. Every child has the right be feel safe and protected at school. ensuring that all parties involved know what the process in which I will be following to ensure these acts to do re-occur. Making sure all sides of the story are being told.
