

## Preuve et attestation de développement professionnel

### Sexto response kit 1 - Explorateur

#### Description:

For legal reasons, the use of the SEXTO kit is reserved exclusively for Quebec's education sector personnel. In addition, its use must be the subject of a prior agreement between the police force that serves the territory where the school is located and the Director of Criminal and Penal Prosecutions (DCPP). Please note that an attestation badge will only be attributed to personnel at education institutions in a territory where such an agreement has been concluded. Before completing the training program, it is therefore recommended that you validate this information with your superiors or your police force. This training program is designed to equip education sector personnel to act quickly and efficiently with the students in their institution who are involved in a sexting situation. Sexting among teenagers can be defined as the shared production, distribution, and redistribution of sexual content (photos, videos, etc.) via information and communication technologies. At the end of the Explorer level of this training program, you will be able to understand the phenomenon and guide those involved in the management of cases that could be brought to their attention through an intervention tool, namely the Sexto kit. At the Architect level, through interactive organized activities, you will be presented with three fictional cases of sexting in order to consolidate new learning and validate your interventions. The creation of the Sexto kit was made possible thanks to the collaboration of the City of Saint-Jérôme (Quebec), the Director of Criminal and Penal Prosecutions (DCPP), the Canadian Centre for Child Protection, the Crime Victims Assistance Centre (CAVAC), Commission scolaire de la Rivière-du-Nord, and Académie Lafontaine. The Sexto Kit training program was developed by CADRE21 and carried out thanks to the participation of Fédération des établissements d'enseignements privés (FEEP) and funding from the ministère de l'Éducation et de l'enseignement supérieur (Quebec ministry of education and higher education, or MÉES).

# Sexto response kit 1 - Explorateur

Question 1 - What have I learned from the Sexto intervention method?

The basic intervention is to start with the kit, which will give you access to comprehend the whole situation specifically. Only employees with the badge (accomplished workshop CADRE21) from a school field have access to work with teenagers (young adults) and use the "Sex Kit". This intervention can take up to 4 days for schools, police officers and justice courts to work on a specific sex kit case. Victims may feel validated that their situation is taken seriously. Adolescents can then have access to social services and receive help to meet all their needs. Needs that have affected them mentally, physically and financially (for their families also).

Question 2 - What will this training change in my future interventions?

Staff members will be prepared to know what is specifically expected to do. We will be well informed and can bring knowledge to our students. The use of prevention method may expose teenagers to realize the consequences that can occur. Our actions with the kit, will occur faster towards court, in order to terminate the instigator's illegal acts. Interventions may have teenagers realize how intense of a criminal act this is. Hopefully with time, fewer cases will eventually happen with prevention.

Question 3 - What will be my focus with the students when I have to intervene?

Make sure the victim is feeling safe and calm when using/questioning with the kit. Validate the victim's emotions/feelings.

Focus on the instigator as well. Make sure to remove his/her cell phone and use the sex kit to evaluate the situation. Then call the police without explaining the situation.

Question the important/specific students who are part of the situation.
