

## Preuve et attestation de développement professionnel

### Sexto response kit 1 - Explorateur

#### Description:

For legal reasons, the use of the SEXTO kit is reserved exclusively for Quebec's education sector personnel. In addition, its use must be the subject of a prior agreement between the police force that serves the territory where the school is located and the Director of Criminal and Penal Prosecutions (DCPP). Please note that an attestation badge will only be attributed to personnel at education institutions in a territory where such an agreement has been concluded. Before completing the training program, it is therefore recommended that you validate this information with your superiors or your police force. This training program is designed to equip education sector personnel to act quickly and efficiently with the students in their institution who are involved in a sexting situation. Sexting among teenagers can be defined as the shared production, distribution, and redistribution of sexual content (photos, videos, etc.) via information and communication technologies. At the end of the Explorer level of this training program, you will be able to understand the phenomenon and guide those involved in the management of cases that could be brought to their attention through an intervention tool, namely the Sexto kit. At the Architect level, through interactive organized activities, you will be presented with three fictional cases of sexting in order to consolidate new learning and validate your interventions. The creation of the Sexto kit was made possible thanks to the collaboration of the City of Saint-Jérôme (Quebec), the Director of Criminal and Penal Prosecutions (DCPP), the Canadian Centre for Child Protection, the Crime Victims Assistance Centre (CAVAC), Commission scolaire de la Rivière-du-Nord, and Académie Lafontaine. The Sexto Kit training program was developed by CADRE21 and carried out thanks to the participation of Fédération des établissements d'enseignements privés (FEEP) and funding from the ministère de l'Éducation et de l'enseignement supérieur (Quebec ministry of education and higher education, or MÉES).

# Sexto response kit 1 - Explorateur

Question 1 - What have I learned from the Sexto intervention method?

- my role as an education sector intervener is to quickly draw a portrait of the sexting situation following Sexto Response Kit
- NEVER consult any device or file that may contain intimate images
- the origin and reason/need for the Sexto program

Legal aspects, stats about the rising number of sexting incidents among minors and the challenges/ problems it creates for teens, families, communities and the law. The impact is considerable.

Question 2 - What will this training change in my future interventions?

It will change the way my school (myself included as a trained intervener) conducts all future sexting interventions. Sexto is a standardized way to deal with the issue and it increases the efficiency and speed of interventions. From now on, I will notify the project coordinator at my school and then begin addressing the situation using the SEXTO kit. I will follow steps using checklist. If i have reason to believe images/videos of child pornography are on a device I will confiscate it, avoiding consulting the images. I will contact police for each file involving the use of the Sexto kit.

Question 3 - What will be my focus with the students when I have to intervene?

- To inform young people as to the criminal nature of their conduct and educate them about the consequences of sexting
- to PROTECT the young victim(s), limit the dessimination of info and preserve the identity and safety of the youths involved.
