

Preuve et attestation de développement professionnel

Sexto response kit 1 - Explorateur

Description:

For legal reasons, the use of the SEXTO kit is reserved exclusively for Quebec's education sector personnel. In addition, its use must be the subject of a prior agreement between the police force that serves the territory where the school is located and the Director of Criminal and Penal Prosecutions (DCPP). Please note that an attestation badge will only be attributed to personnel at education institutions in a territory where such an agreement has been concluded. Before completing the training program, it is therefore recommended that you validate this information with your superiors or your police force. This training program is designed to equip education sector personnel to act quickly and efficiently with the students in their institution who are involved in a sexting situation. Sexting among teenagers can be defined as the shared production, distribution, and redistribution of sexual content (photos, videos, etc.) via information and communication technologies. At the end of the Explorer level of this training program, you will be able to understand the phenomenon and guide those involved in the management of cases that could be brought to their attention through an intervention tool, namely the Sexto kit. At the Architect level, through interactive organized activities, you will be presented with three fictional cases of sexting in order to consolidate new learning and validate your interventions. The creation of the Sexto kit was made possible thanks to the collaboration of the City of Saint-Jérôme (Quebec), the Director of Criminal and Penal Prosecutions (DCPP), the Canadian Centre for Child Protection, the Crime Victims Assistance Centre (CAVAC), Commission scolaire de la Rivière-du-Nord, and Académie Lafontaine. The Sexto Kit training program was developed by CADRE21 and carried out thanks to the participation of Fédération des établissements d'enseignements privés (FEEP) and funding from the ministère de l'Éducation et de l'enseignement supérieur (Quebec ministry of education and higher education, or MÉES).

Sexto response kit 1 - Explorateur

Question 1 - What have I learned from the Sexto intervention method?

There are different interventions depending if an act is malicious or impulsive. The benefit of SEXTO Kit is that it greatly reduces intervention times to about 4 days which is of benefit to victims. As well, dealing with first hand and second hand information requires a different set of interventions.

Question 2 - What will this training change in my future interventions?

It will change the way I handle a situation, depending if I am dealing with a victim or instigator. For example, it is extremely important that I deal with information coming first hand from the victim. I will use tools such as the "to do" tool will ensure that I have covered all the necessary steps to support a victim or intervene with an instigator.

Question 3 - What will be my focus with the students when I have to intervene?

Given my role as a social service worker in the schools, I understand that managing situations where students have to reveal that there are sensitive images about them online is difficult and stressful for young people. Therefore, I will ensure that my approach is to understand and manage the situation in a delicate manner and appropriately.
