

## Preuve et attestation de développement professionnel

### Sexto response kit 1 - Explorateur

#### Description:

For legal reasons, the use of the SEXTO kit is reserved exclusively for Quebec's education sector personnel. In addition, its use must be the subject of a prior agreement between the police force that serves the territory where the school is located and the Director of Criminal and Penal Prosecutions (DCPP). Please note that an attestation badge will only be attributed to personnel at education institutions in a territory where such an agreement has been concluded. Before completing the training program, it is therefore recommended that you validate this information with your superiors or your police force. This training program is designed to equip education sector personnel to act quickly and efficiently with the students in their institution who are involved in a sexting situation. Sexting among teenagers can be defined as the shared production, distribution, and redistribution of sexual content (photos, videos, etc.) via information and communication technologies. At the end of the Explorer level of this training program, you will be able to understand the phenomenon and guide those involved in the management of cases that could be brought to their attention through an intervention tool, namely the Sexto kit. At the Architect level, through interactive organized activities, you will be presented with three fictional cases of sexting in order to consolidate new learning and validate your interventions. The creation of the Sexto kit was made possible thanks to the collaboration of the City of Saint-Jérôme (Quebec), the Director of Criminal and Penal Prosecutions (DCPP), the Canadian Centre for Child Protection, the Crime Victims Assistance Centre (CAVAC), Commission scolaire de la Rivière-du-Nord, and Académie Lafontaine. The Sexto Kit training program was developed by CADRE21 and carried out thanks to the participation of Fédération des établissements d'enseignements privés (FEEP) and funding from the ministère de l'Éducation et de l'enseignement supérieur (Quebec ministry of education and higher education, or MÉES).

# Sexto response kit 1 - Explorateur

Question 1 - What have I learned from the Sexto intervention method?

The sexto program was invented to protect everyone involved in these incidents. It allows me to understand the entire process and all elements involved, instigating move, intentions, scope etc. It also explained that it takes days instead of months. I also learned the difference between impulsive and malicious acts. Furthermore I learned how to handle second hand information when a parent is looking for support for pictures found.

Question 2 - What will this training change in my future interventions?

It will help our team to handle these delicate cases with a formal process. By using the sexto kit it will give me a process that allows me to gather the information appropriately and make sure that I have checked everything needed when confronted with a sexting situation. It will give me more guidance and insurance when helping to support sexting situations.

Question 3 - What will be my focus with the students when I have to intervene?

The focus will be to reassure the students and gather relevant information in a structured and appropriate way with no judgement or bias. The overall goal is to protect the students.
