

Preuve et attestation de développement professionnel

Sexto response kit 1 - Explorateur

Description:

For legal reasons, the use of the SEXTO kit is reserved exclusively for Quebec's education sector personnel. In addition, its use must be the subject of a prior agreement between the police force that serves the territory where the school is located and the Director of Criminal and Penal Prosecutions (DCPP). Please note that an attestation badge will only be attributed to personnel at education institutions in a territory where such an agreement has been concluded. Before completing the training program, it is therefore recommended that you validate this information with your superiors or your police force. This training program is designed to equip education sector personnel to act quickly and efficiently with the students in their institution who are involved in a sexting situation. Sexting among teenagers can be defined as the shared production, distribution, and redistribution of sexual content (photos, videos, etc.) via information and communication technologies. At the end of the Explorer level of this training program, you will be able to understand the phenomenon and guide those involved in the management of cases that could be brought to their attention through an intervention tool, namely the Sexto kit. At the Architect level, through interactive organized activities, you will be presented with three fictional cases of sexting in order to consolidate new learning and validate your interventions. The creation of the Sexto kit was made possible thanks to the collaboration of the City of Saint-Jérôme (Quebec), the Director of Criminal and Penal Prosecutions (DCPP), the Canadian Centre for Child Protection, the Crime Victims Assistance Centre (CAVAC), Commission scolaire de la Rivière-du-Nord, and Académie Lafontaine. The Sexto Kit training program was developed by CADRE21 and carried out thanks to the participation of Fédération des établissements d'enseignements privés (FEEP) and funding from the ministère de l'Éducation et de l'enseignement supérieur (Quebec ministry of education and higher education, or MÉES).

Sexto response kit 1 - Explorateur

Question 1 - What have I learned from the Sexto intervention method?

I learned that sexting situations are more and more prevalent in today's society. I also learned the importance of following the guidelines of the SEXTO intervention kit, in order to ensure the safety of all individuals involved (students, victim(s), and staff members).

Question 2 - What will this training change in my future interventions?

This training will ensure that for my future interventions involving a sexting case, I will always open the SEXTO kit and follow the steps exactly how they are explained, except if the case is brought to me by a parent and it is of a situation outside of the school. Importantly, this training has confirmed what I thought was true, which is that as a staff member of a school I am never allowed to see the sexual content as it is a criminal act. This means that in my future interventions, I can confidently communicate to students and parents my role as an intervener, and the limitations that this role entails.

Question 3 - What will be my focus with the students when I have to intervene?

My focus will be the goals of the education sector, especially the goal of ensuring every student feels safe in their school community. I will follow the SEXTO guidelines and not act as someone from any sector other than the education sector. Once my focus on the SEXTO kit is complete, my next focus will be to ensure the privacy of the victim, their parents, and their community.
