

Preuve et attestation de développement professionnel

Sexto response kit 1 - Explorateur

Description:

For legal reasons, the use of the SEXTO kit is reserved exclusively for Quebec's education sector personnel. In addition, its use must be the subject of a prior agreement between the police force that serves the territory where the school is located and the Director of Criminal and Penal Prosecutions (DCPP). Please note that an attestation badge will only be attributed to personnel at education institutions in a territory where such an agreement has been concluded. Before completing the training program, it is therefore recommended that you validate this information with your superiors or your police force. This training program is designed to equip education sector personnel to act quickly and efficiently with the students in their institution who are involved in a sexting situation. Sexting among teenagers can be defined as the shared production, distribution, and redistribution of sexual content (photos, videos, etc.) via information and communication technologies. At the end of the Explorer level of this training program, you will be able to understand the phenomenon and guide those involved in the management of cases that could be brought to their attention through an intervention tool, namely the Sexto kit. At the Architect level, through interactive organized activities, you will be presented with three fictional cases of sexting in order to consolidate new learning and validate your interventions. The creation of the Sexto kit was made possible thanks to the collaboration of the City of Saint-Jérôme (Quebec), the Director of Criminal and Penal Prosecutions (DCPP), the Canadian Centre for Child Protection, the Crime Victims Assistance Centre (CAVAC), Commission scolaire de la Rivière-du-Nord, and Académie Lafontaine. The Sexto Kit training program was developed by CADRE21 and carried out thanks to the participation of Fédération des établissements d'enseignements privés (FEEP) and funding from the ministère de l'Éducation et de l'enseignement supérieur (Quebec ministry of education and higher education, or MÉES).

Sexto response kit 1 - Explorateur

Question 1 - What have I learned from the Sexto intervention method?

I've learned that the Sexto intervention is a quick and effective way of handling sexting among teenagers and significantly limits the repercussions of sexting. With the Sexto intervention, it only takes 4 days while without it, it can take several months, even more than a year. I also learned about the Incident Evaluation Grid, where the questions are non judgmental and they don't give the teens answers.

Question 2 - What will this training change in my future interventions?

I will know what to do if a student comes to me with a sexting situation. I know that I need to open the kit, make the student complete the grid, and I will be calm and confident because I will know what to do and what to say. I think that this will reassure the student to know that I know that to do and that they will be in good hands.

Question 3 - What will be my focus with the students when I have to intervene?

My focus will be on their well-being and their sense of security. I will make sure that the photos that are being distributed will be deleted and I will make sure that the student is okay.
