

Preuve et attestation de développement professionnel

Sexto response kit 1 - Explorateur

Description:

For legal reasons, the use of the SEXTO kit is reserved exclusively for Quebec's education sector personnel. In addition, its use must be the subject of a prior agreement between the police force that serves the territory where the school is located and the Director of Criminal and Penal Prosecutions (DCPP). Please note that an attestation badge will only be attributed to personnel at education institutions in a territory where such an agreement has been concluded. Before completing the training program, it is therefore recommended that you validate this information with your superiors or your police force. This training program is designed to equip education sector personnel to act quickly and efficiently with the students in their institution who are involved in a sexting situation. Sexting among teenagers can be defined as the shared production, distribution, and redistribution of sexual content (photos, videos, etc.) via information and communication technologies. At the end of the Explorer level of this training program, you will be able to understand the phenomenon and guide those involved in the management of cases that could be brought to their attention through an intervention tool, namely the Sexto kit. At the Architect level, through interactive organized activities, you will be presented with three fictional cases of sexting in order to consolidate new learning and validate your interventions. The creation of the Sexto kit was made possible thanks to the collaboration of the City of Saint-Jérôme (Quebec), the Director of Criminal and Penal Prosecutions (DCPP), the Canadian Centre for Child Protection, the Crime Victims Assistance Centre (CAVAC), Commission scolaire de la Rivière-du-Nord, and Académie Lafontaine. The Sexto Kit training program was developed by CADRE21 and carried out thanks to the participation of Fédération des établissements d'enseignements privés (FEEP) and funding from the ministère de l'Éducation et de l'enseignement supérieur (Quebec ministry of education and higher education, or MÉES).

Sexto response kit 1 - Explorateur

Question 1 - What have I learned from the Sexto intervention method?

I learned that I am required to confiscate the phones of the students involved in the case, and how to do so properly. I learned that no school personnel is permitted to look at the content in question, even if a student wants/tries to show it to them. I also learned when to contact the police within the process (impulsive vs malicious). I learned that the police force cannot ask the interveners to make additional overtures to other students potentially involved in the event.

Question 2 - What will this training change in my future interventions?

I will feel more confident intervening, since there is a clear protocol to follow. I will also be more equipped to involve the parents.

Question 3 - What will be my focus with the students when I have to intervene?

I will offer psychosocial support. I will guide and accompany them as much as I can throughout the process. I will explain what to expect in cases of impulsive acts and the subsequent Sexto Education Meeting. I will continue to offer emotional support to any victims, and find extra support services in the community (CAVAC, CALACS, IVAC etc.) for the students.
