

## Preuve et attestation de développement professionnel

### Sexto response kit 1 - Explorateur

#### Description:

For legal reasons, the use of the SEXTO kit is reserved exclusively for Quebec's education sector personnel. In addition, its use must be the subject of a prior agreement between the police force that serves the territory where the school is located and the Director of Criminal and Penal Prosecutions (DCPP). Please note that an attestation badge will only be attributed to personnel at education institutions in a territory where such an agreement has been concluded. Before completing the training program, it is therefore recommended that you validate this information with your superiors or your police force. This training program is designed to equip education sector personnel to act quickly and efficiently with the students in their institution who are involved in a sexting situation. Sexting among teenagers can be defined as the shared production, distribution, and redistribution of sexual content (photos, videos, etc.) via information and communication technologies. At the end of the Explorer level of this training program, you will be able to understand the phenomenon and guide those involved in the management of cases that could be brought to their attention through an intervention tool, namely the Sexto kit. At the Architect level, through interactive organized activities, you will be presented with three fictional cases of sexting in order to consolidate new learning and validate your interventions. The creation of the Sexto kit was made possible thanks to the collaboration of the City of Saint-Jérôme (Quebec), the Director of Criminal and Penal Prosecutions (DCPP), the Canadian Centre for Child Protection, the Crime Victims Assistance Centre (CAVAC), Commission scolaire de la Rivière-du-Nord, and Académie Lafontaine. The Sexto Kit training program was developed by CADRE21 and carried out thanks to the participation of Fédération des établissements d'enseignements privés (FEEP) and funding from the ministère de l'Éducation et de l'enseignement supérieur (Quebec ministry of education and higher education, or MÉES).

# Sexto response kit 1 - Explorateur

Question 1 - What have I learned from the Sexto intervention method?

I have learned about all the important steps for applying the SEXTO protocols as a member of the educational sector.

It is important to follow the clear steps of interventions and to ensure that every aspect is covered in totality.

I also learned that there are two different courses of actions as the intervention progresses, which are impulsive acts and malicious acts.

Also, at no point and time must the intervener view or ask to view the images or videos of potential child pornography.

Question 2 - What will this training change in my future interventions?

This training will allow me to conduct appropriate and adequate interventions for students who are at risk of incidents involving sexting.

Moreover, I am now equipped with the right steps, questions and approaches when working with these students.

Lastly, this training provided me with more knowledge about the sexting and overall interventions surrounding sexting.

Question 3 - What will be my focus with the students when I have to intervene?

My focus when intervening with the students will be to focus on the main areas which are the trigger, nature, intentions and extent of the incident that occurred. This information will allow me to get a full assessment of the situation and will help me to proceed in the Sexto interventions and procedures. Thus, improving the overall quality of intervention that is being provided to students and maximizing their overall safety and well-being in the process while respecting the laws and protocols in place.
