

## Preuve et attestation de développement professionnel

### Sexto response kit 1 - Explorateur

#### Description:

For legal reasons, the use of the SEXTO kit is reserved exclusively for Quebec's education sector personnel. In addition, its use must be the subject of a prior agreement between the police force that serves the territory where the school is located and the Director of Criminal and Penal Prosecutions (DCPP). Please note that an attestation badge will only be attributed to personnel at education institutions in a territory where such an agreement has been concluded. Before completing the training program, it is therefore recommended that you validate this information with your superiors or your police force. This training program is designed to equip education sector personnel to act quickly and efficiently with the students in their institution who are involved in a sexting situation. Sexting among teenagers can be defined as the shared production, distribution, and redistribution of sexual content (photos, videos, etc.) via information and communication technologies. At the end of the Explorer level of this training program, you will be able to understand the phenomenon and guide those involved in the management of cases that could be brought to their attention through an intervention tool, namely the Sexto kit. At the Architect level, through interactive organized activities, you will be presented with three fictional cases of sexting in order to consolidate new learning and validate your interventions. The creation of the Sexto kit was made possible thanks to the collaboration of the City of Saint-Jérôme (Quebec), the Director of Criminal and Penal Prosecutions (DCPP), the Canadian Centre for Child Protection, the Crime Victims Assistance Centre (CAVAC), Commission scolaire de la Rivière-du-Nord, and Académie Lafontaine. The Sexto Kit training program was developed by CADRE21 and carried out thanks to the participation of Fédération des établissements d'enseignements privés (FEEP) and funding from the ministère de l'Éducation et de l'enseignement supérieur (Quebec ministry of education and higher education, or MÉES).

# Sexto response kit 1 - Explorateur

Question 1 - What have I learned from the Sexto intervention method?

I have learned the legal implications and how to collaborate with law enforcement. I realize that I don't have to confiscate phone right away. The Sexto Intervention kit is a must to properly document the events and is a great tool to follow procedure. Therefore, I know how to activate and lead the Sexto protocol. I initiate and gather information, secure and preserve digital evidence without violating privacy laws.

Question 2 - What will this training change in my future interventions?

I was quite uncomfortable with the Sexto procedure, as I was not familiar with it. I believe I am more confident and equipped to lead this. I used to think I had to automatically confiscate cell phones. I will be able to be assert my authority and coordinate properly without feeling overwhelmed. I will still contact my superiors in cases of questions but I will need less coaching and guidance for sure. First time this happened I was calling everywhere because I was unsure how to proceed.

Question 3 - What will be my focus with the students when I have to intervene?

The first thing is to ensure the safety of the student. It is important to contain the situation and create a safe space for communication, trust, empathy and restorative practices to take place. We have to offer support to the student and make sure they do not feel ashamed.
