

Preuve et attestation de développement professionnel

Sexto response kit 1 - Explorateur

Description:

For legal reasons, the use of the SEXTO kit is reserved exclusively for Quebec's education sector personnel. In addition, its use must be the subject of a prior agreement between the police force that serves the territory where the school is located and the Director of Criminal and Penal Prosecutions (DCPP). Please note that an attestation badge will only be attributed to personnel at education institutions in a territory where such an agreement has been concluded. Before completing the training program, it is therefore recommended that you validate this information with your superiors or your police force...

Preuve et attestation de développement professionnel

Sexto response kit 1 - Explorateur

Question 1 - What have I learned from the Sexto intervention method?

Must be a school related incident. We are not the police and we are supposed to use the sexto intervention kit for an incident relating to students. Use sexto intervention method when there is a possibility of a sexto violation. Never look at the images. If there is reason to believe there is content on a student phone that is explicit the phone should be taken. Police should be informed. Parents should be notified of the situation.

Question 2 - What will this training change in my future interventions?

The training will help me determine when the sexto intervention kit should be open and used. It will help me know the steps to take to intervene and help victims. The training will also help determine if the police should be called and also when to inform parents of the matter. It will also help teach how to approach the situation with caution, understanding and empathy for those involved.

Question 3 - What will be my focus with the students when I have to intervene?

My focus will be to gather information in a very non judgemental method and act as someone who is trying to help with the situation. We want to reassure the victim that we are here to help and that coming forward and seeking help was a good idea. The focus should also be to act quickly enough to help prevent the content from spreading further.
