

Preuve et attestation de développement professionnel

Sexto response kit 1 - Explorateur

Description:

For legal reasons, the use of the SEXTO kit is reserved exclusively for Quebec's education sector personnel. In addition, its use must be the subject of a prior agreement between the police force that serves the territory where the school is located and the Director of Criminal and Penal Prosecutions (DCPP). Please note that an attestation badge will only be attributed to personnel at education institutions in a territory where such an agreement has been concluded. Before completing the training program, it is therefore recommended that you validate this information with your superiors or your police force...

Preuve et attestation de développement professionnel

Sexto response kit 1 - Explorateur

Question 1 - What have I learned from the Sexto intervention method?

I learned the role of the school in Sexto intervention and how this differs from the role of the police. The school gathers information according to the protocol and kit, following the steps to ensure the situation is handled properly whether it be a malicious event or not. The police step in and execute their protocol on the basis of the information gathered. Most events are not malicious in nature, however, those involved still receive an educational follow-up by the police to ensure they understand the consequences of their actions and the impact sharing these images has.

Question 2 - What will this training change in my future interventions?

The training has given me a step-by-step protocol that will be useful in my future interventions to ensure cases are handled appropriately so students feel safe and so the police can properly execute their portion of the protocol. The kit is a useful tool to ensure no step is missed, especially given situations like this can involve multiple students across multiple schools and police districts. It will allow me to coordinate a response with those stakeholders more effectively.

Question 3 - What will be my focus with the students when I have to intervene?

My focus with the students will be confidentiality and security. It is important that their identity and the situation be kept confidential to the school population at large and any media who may ask to report about incidents. Security is important with regards to the devices containing the images. It is important that no one involved view these intimate materials and that the devices be put into the provided ziploc bag to be handled by police.
