

Preuve et attestation de développement professionnel

## Sexto response kit 1 - Explorateur

### Description:

For legal reasons, the use of the SEXTO kit is reserved exclusively for Quebec's education sector personnel. In addition, its use must be the subject of a prior agreement between the police force that serves the territory where the school is located and the Director of Criminal and Penal Prosecutions (DCPP). Please note that an attestation badge will only be attributed to personnel at education institutions in a territory where such an agreement has been concluded. Before completing the training program, it is therefore recommended that you validate this information with your superiors or your police force...

## Preuve et attestation de développement professionnel

## Sexto response kit 1 - Explorateur

### Question 1 - What have I learned from the Sexto intervention method?

I have learned how to intervene appropriately when I hear that a student is involved in a situation where a sexto has been disseminated. I have learned that there are different procedures to follow depending on our understanding of whether the incident was malicious or impulsive (including when to confiscate the phone, when to call the police, parents or when to continue to use the evaluation grid to question students). Most importantly, never ask to see the photos to avoid implicating yourself in viewing child pornography. I have learned that we are not working alone and that we collaborate with the students involved and the police force in order get as much information as we can to stop the dissemination of child pornography. There is a checklist of protocols to follow and questions to answer to help support how we manage each situation.

### Question 2 - What will this training change in my future interventions?

This training has given me a solid base on how to intervene. I would never have known not to tell students to not keep the images, as I would have thought they would need need to keep it as proof to show the police. Moving forward, I will follow the SEXTO protocol's checklist and complete the evaluation with students involved in order to get a better picture of what took place during the incident and report each incident to the police. I feel more equipped to act appropriately to support students involved.

### Question 3 - What will be my focus with the students when I have to intervene?

Initially, I will focus on making students feel safe and listened to and that they did the right thing to seek out a teacher or SEXTO intervention agent. Students need to feel that they are with someone they can trust when they feel that they are disclosing sensitive information (whether they are implicated in the actual incident, or overhear that a SEXTO was spreading. It will be important to remain sensitive to what students are sharing with you, but also being clear on the steps I will need to take in order to complete the SEXTO protocol.
