

Preuve et attestation de développement professionnel

Sexto response kit 1 - Explorateur

Description:

For legal reasons, the use of the SEXTO kit is reserved exclusively for Quebec's education sector personnel. In addition, its use must be the subject of a prior agreement between the police force that serves the territory where the school is located and the Director of Criminal and Penal Prosecutions (DCPP). Please note that an attestation badge will only be attributed to personnel at education institutions in a territory where such an agreement has been concluded. Before completing the training program, it is therefore recommended that you validate this information with your superiors or your police force...

Badge attribué à : James Vandenberg

Preuve et attestation de développement professionnel

Sexto response kit 1 - Explorateur

Question 1 - What have I learned from the Sexto intervention method?

I've learned that the police force and schools have put the Sexto method together to systematize interventions and empower schools and partners to effectively intervene in the growing number of cases related to sexting. For example, the method provides tools such as the incident evaluation grid that can help intervenors evaluate the seriousness and scope of a situation, and to give us a plan for what to do. The method has been largely successful, and I am glad that it exists to help us use it.

Question 2 - What will this training change in my future interventions?

Once I receive both of the necessary badges, the training will give me a tool to reliably intervene in sexting situations between students at my institution. My interventions will be systematic and likely more effective than before I received the training. I will be empowered to respond confidently since I will know what works and what my role is. For example, by using the kit, I can be sure that I have stayed within my legal limits as an intervenor, and have set the police force up for success whether it be a traditional investigation for a malicious act or a meeting for an impulsive act.

Question 3 - What will be my focus with the students when I have to intervene?

My focus will be on using the sexto method that has been put in place that take into account effective intervention, the law, and the well-being of the students and other parties involved. Once I complete the training, I will be able to respond more effectively by taking out the kit and going through the steps. I am sure that the systematization of these types of interventions has brought confidence to the young people involved that these matters are being taken seriously by both the police and the schools.
