Preuve et attestation de développement professionnel

Sexto response kit 1 - Explorateur

Description:

For legal reasons, the use of the SEXTO kit is reserved exclusively for Quebec's education sector personnel. In addition, its use must be the subject of a prior agreement between the police force that serves the territory where the school is located and the Director of Criminal and Penal Prosecutions (DCPP). Please note that an attestation badge will only be attributed to personnel at education institutions in a territory where such an agreement has been concluded. Before completing the training program, it is therefore recommended that you validate this information with your superiors or your police force...

Preuve et attestation de développement professionnel

Sexto response kit 1 - Explorateur

Question 1 - What have I learned from the Sexto intervention method?

I've learned the importance of acting right away in a situation of sexto. I've learned that there is a kit to use and lead our intervention and to help us know more about the event and the entend of the perpetrator. I've also learned that we should not complete the evaluation guide with the perpetrator because the police need to do it (It can discard the credibility of the confession if it's us because we are in an autority position). I've also learned that we are allowed to confiscate a cellphone if we think there is images on it and that we should not try to find those images because it is illegal.

Question 2 - What will this training change in my future interventions?

I will know how to act legally to this type of situation and reduce the impact of it on the victim, family and people that were involved. I will feel confident to act right away, be more efficient and protect our students. I now understand the impact of these type of situations, for exemple, a sexual picture of someone could be shared around the school and create a situation of bullying, so we need to act as fast as possible.

Question 3 – What will be my focus with the students when I have to intervene?

To keep their privacy and complete the evaluation guide with them to have all the informations needed to know if we are facing a malicious act or not and to stop the spreading of pictures. I also want them to feel comfortable, safe and respected when they are sharing these informations with me. My focus is also to act quickly and communicate with police when I'm done with the evaluation of the situation so it can get solved as quickly as possible.
