

## Preuve et attestation de développement professionnel

### Sexto response kit 2 – Architecte

#### Description:

For legal reasons, the use of the SEXTO kit is reserved exclusively for Quebec's education sector personnel. In addition, its use must be the subject of a prior agreement between the police force that serves the territory where the school is located and the Director of Criminal and Penal Prosecutions (DCPP). Please note that an attestation badge will only be attributed to personnel at education institutions in a territory where such an agreement has been concluded. Before completing the training program, it is therefore recommended that you validate this information with your superiors or your police force. This training program is designed to equip education sector personnel to act quickly and efficiently with the students in their institution who are involved in a sexting situation. Sexting among teenagers can be defined as the shared production, distribution, and redistribution of sexual content (photos, videos, etc.) via information and communication technologies. At the end of the Explorer level of this training program, you will be able to understand the phenomenon and guide those involved in the management of cases that could be brought to their attention through an intervention tool, namely the Sexto kit. At the Architect level, through interactive organized activities, you will be presented with three fictional cases of sexting in order to consolidate new learning and validate your interventions. The creation of the Sexto kit was made possible thanks to the collaboration of the City of Saint-Jérôme (Quebec), the Director of Criminal and Penal Prosecutions (DCPP), the Canadian Centre for Child Protection, the Crime Victims Assistance Centre (CAVAC), Commission scolaire de la Rivière-du-Nord, and Académie Lafontaine. The Sexto Kit training program was developed by CADRE21 and carried out thanks to the participation of Fédération des établissements d'enseignements privés (FEEP) and funding from the ministère de l'Éducation et de l'enseignement supérieur (Quebec ministry of education and higher education, or MÉES).

# Sexto response kit 2 – Architecte

Question 1 - How can I summarize the steps of the Sexto method?

It is important to meet with the person who is addressing a sexto situation with the intervener. Here you complete the evaluation grid. If other names are mentioned, it is important to meet with others individually. If it is determined that pictures are being shared, you meet with the perpetrator to explain the steps and to confiscate the device. Do not look at the images; and call the police to have them take over the investigation.

Question 2 - What have I learned from the three situations presented?

With each situation you were able to see the importance of following the guide provided and filling out the appropriate paperwork. As well it allowed you to see the outcome of the situation depending on the answers you chose. I particularly learned the importance of protecting all parties within the situation and how all stakeholders can work together to stop a SEXTO situation.

Question 3 - Which step do I find the most delicate when applying the Sexto method?

I find the most delicate part is the confiscating of the device, due to the fact that the perpetrator could refuse to hand over the device.
