Sexto response kit 2 – Architecte

Description:

For legal reasons, the use of the SEXTO kit is reserved exclusively for Quebec's education sector personnel. In addition, its use must be the subject of a prior agreement between the police force that serves the territory where the school is located and the Director of Criminal and Penal Prosecutions (DCPP). Please note that an attestation badge will only be attributed to personnel at education institutions in a territory where such an agreement has been concluded. Before completing the training program, it is therefore recommended that you validate this information with your superiors or your police force. This training program is designed to equip education sector personnel to act quickly and efficiently with the students in their institution who are involved in a sexting situation. Sexting among teenagers can be defined as the shared production, distribution, and redistribution of sexual content (photos, videos, etc.) via information and communication technologies. At the end of the Explorer level of this training program, you will be able to understand the phenomenon and guide those involved in the management of cases that could be brought to their attention through an intervention tool, namely the Sexto kit. At the Architect level, through interactive organized activities, you will be presented with three fictional cases of sexting in order to consolidate new learning and validate your interventions. The creation of the Sexto kit was made possible thanks to the collaboration of the City of Saint-Jérôme (Quebec), the Director of Criminal and Penal Prosecutions (DCPP), the Canadian Centre for Child Protection, the Crime Victims Assistance Centre (CAVAC), Commission scolaire de la Rivière-du-Nord, and Académie Lafontaine. The Sexto Kit training program was developed by CADRE21 and carried out thanks to the participation of Fédération des établissements d'enseignements privés (FEEP) and funding from the ministère de l'Éducation et de l'enseignement supérieur (Quebec ministry of education and higher education, or MÉES).

Question 1 - How can I summarize the steps of the Sexto method?

The steps are clear. The start with the neutral investigation but end with police work. The different between the act of impulse is the intent behind the pictures or videos. If it is decided that the situation is non intentional then maybe the child will be educated on the situation versus punishment. The point to the SEXto method is to help the people involved feel supported in a non judgmental way. Just get the facts and assess the situation with the facts. Always informing the police with the different situations and what you did with them.

Question 2 - What have I learned from the three situations presented?

I learned that every situation is different and should follow the steps needed pre specific situation.

Question 3 - Which step do I find the most delicate when applying the Sexto method?

Deciding if there is an intent of malice. It can be possible sometimes that the students pretend and I miss it.
