Sexto response kit 2 – Architecte

Description:

For legal reasons, the use of the SEXTO kit is reserved exclusively for Quebec's education sector personnel. In addition, its use must be the subject of a prior agreement between the police force that serves the territory where the school is located and the Director of Criminal and Penal Prosecutions (DCPP). Please note that an attestation badge will only be attributed to personnel at education institutions in a territory where such an agreement has been concluded. Before completing the training program, it is therefore recommended that you validate this information with your superiors or your police force. This training program is designed to equip education sector personnel to act quickly and efficiently with the students in their institution who are involved in a sexting situation. Sexting among teenagers can be defined as the shared production, distribution, and redistribution of sexual content (photos, videos, etc.) via information and communication technologies. At the end of the Explorer level of this training program, you will be able to understand the phenomenon and guide those involved in the management of cases that could be brought to their attention through an intervention tool, namely the Sexto kit. At the Architect level, through interactive organized activities, you will be presented with three fictional cases of sexting in order to consolidate new learning and validate your interventions. The creation of the Sexto kit was made possible thanks to the collaboration of the City of Saint-Jérôme (Quebec), the Director of Criminal and Penal Prosecutions (DCPP), the Canadian Centre for Child Protection, the Crime Victims Assistance Centre (CAVAC), Commission scolaire de la Rivière-du-Nord, and Académie Lafontaine. The Sexto Kit training program was developed by CADRE21 and carried out thanks to the participation of Fédération des établissements d'enseignements privés (FEEP) and funding from the ministère de l'Éducation et de l'enseignement supérieur (Quebec ministry of education and higher education, or MÉES).

Sexto response kit 2 – Architecte

Question 1 - How can I summarize the steps of the Sexto method?

It is important to follow the kit so that we can act accordingly while maintaining confidentiality and acting fast so that the issue can be rectified.

I need to speak to the victim, evaluate the incident, and verify the information given to me by following the kit. Once intent has been known and all information has been gathered from all parties involved, then I need to confiscate and/or contact police.

Question 2 - What have I learned from the three situations presented?

That each scenario is different and although in an ideal world we would always follow the same steps, we cannot do so. Each scenario is different and as more information is gathered, our plan of action may change.

Question 3 - Which step do I find the most delicate when applying the Sexto method?

When multiple parties are involved and malicious intent (ex: asking for money) is known, I would have automatically called the police. However, I need to remember that it is important to continue the kit with all parties involved (including the instigator) and confiscate the cellphone. Before this, I would have confiscated the phone and called the police right away.
