Sexto response kit 2 – Architecte

Description:

For legal reasons, the use of the SEXTO kit is reserved exclusively for Quebec's education sector personnel. In addition, its use must be the subject of a prior agreement between the police force that serves the territory where the school is located and the Director of Criminal and Penal Prosecutions (DCPP). Please note that an attestation badge will only be attributed to personnel at education institutions in a territory where such an agreement has been concluded. Before completing the training program, it is therefore recommended that you validate this information with your superiors or your police force. This training program is designed to equip education sector personnel to act quickly and efficiently with the students in their institution who are involved in a sexting situation. Sexting among teenagers can be defined as the shared production, distribution, and redistribution of sexual content (photos, videos, etc.) via information and communication technologies. At the end of the Explorer level of this training program, you will be able to understand the phenomenon and guide those involved in the management of cases that could be brought to their attention through an intervention tool, namely the Sexto kit. At the Architect level, through interactive organized activities, you will be presented with three fictional cases of sexting in order to consolidate new learning and validate your interventions. The creation of the Sexto kit was made possible thanks to the collaboration of the City of Saint-Jérôme (Quebec), the Director of Criminal and Penal Prosecutions (DCPP), the Canadian Centre for Child Protection, the Crime Victims Assistance Centre (CAVAC), Commission scolaire de la Rivière-du-Nord, and Académie Lafontaine. The Sexto Kit training program was developed by CADRE21 and carried out thanks to the participation of Fédération des établissements d'enseignements privés (FEEP) and funding from the ministère de l'Éducation et de l'enseignement supérieur (Quebec ministry of education and higher education, or MÉES).

Sexto response kit 2 – Architecte

Question 1 - How can I summarize the steps of the Sexto method?

Once the sexto kit is triggered, I will talk to the author and young victim to evaluate the incident. As information about the incident is under investigation, the intervener will assure everyone with a comfortable tone. For example, I will praise the author or victim for their bravery in telling the intervener.

Question 2 - What have I learned from the three situations presented?

From the three scenario cases, I remember that the sexto response kit is used within the school grounds to help solve incidents concerning shared images on devices. In certain situations, essential factors such as the police or the law must also intervene. The sexto kit is a solution to prevent pictures from being widely disseminated while protecting the young victim's physical, psychological, and sociological state.

Question 3 - Which step do I find the most delicate when applying the Sexto method?

Step 4 is the most delicate step when applying the sexto method. I believe it is the most delicate because it is important not to mention the names of authors and victims who provided the information once communication occurs with the young instigator.
