Preuve et attestation de développement professionnel

Sexto response kit 2 – Architecte

Description:

For legal reasons, the use of the SEXTO kit is reserved exclusively for Quebec's education sector personnel. In addition, its use must be the subject of a prior agreement between the police force that serves the territory where the school is located and the Director of Criminal and Penal Prosecutions (DCPP). Please note that an attestation badge will only be attributed to personnel at education institutions in a territory where such an agreement has been concluded. Before completing the training program, it is therefore recommended that you validate this information with your superiors or your police force...

Sexto response kit 2 – Architecte

Question 1 - How can I summarize the steps of the Sexto method?

Step 1 - speak with the person who making the report and help them feel supported
Step 2 - review the situation without casting judgement and follow the grid to determine the intent of the incident
Step 3 - Verify information (speak to other witnesses who were involved)
take to all students and complete the check list -
Step 4 - speak with the instigator and complete the checklist (unless the behavior was malicious) where the police would be contacted

Question 2 - What have I learned from the three situations presented?

Every situation is different and needs to be handled delicately to protect everyone involved.
Also the importance of following the checklist which simplifies the process.

Question 3 - Which step do I find the most delicate when applying the Sexto method?

the steps are pretty clear and easy to follow with the checklist.
This situation is often one that is very stressful for the student(s) involved and i could see that as the delicate part and difficult to remain neutral while trying to support the student(s)

I could also see contacting the parents are a delicate or challenging step as they may not be aware of the situation and could be a difficult conversation to help coach the parents through the process.
