Sexto response kit 2 – Architecte

Description:

For legal reasons, the use of the SEXTO kit is reserved exclusively for Quebec's education sector personnel. In addition, its use must be the subject of a prior agreement between the police force that serves the territory where the school is located and the Director of Criminal and Penal Prosecutions (DCPP). Please note that an attestation badge will only be attributed to personnel at education institutions in a territory where such an agreement has been concluded. Before completing the training program, it is therefore recommended that you validate this information with your superiors or your police force...

Question 1 - How can I summarize the steps of the Sexto method?

Once a situation is reported, investigate to find out whether it should activate a sexto toolkit. If you trigger the Sexto, you use the intervention toolkit to ensure due process of documentation and legality in handling the case. Once this is complete, you must collaborate with the police and work with your trained police partners in Sexto.

Question 2 - What have I learned from the three situations presented?

- I have learned that as an intervenor, I should not do the job of the police if they request something out of my jurisdiction.
- It is important to verify facts with each parties involved.
- If I believe malicious intent is present, I should meet with the perpetrator and confiscate the phone to avoid further dissemination of illegal pictures.

Question 3 - Which step do I find the most delicate when applying the Sexto method?

The step that I find most delicate in the Sexto protocol is when meeting with the students and trying to obtain their collaboration. We have to balance confidentiality and manage the trust of the students while avoiding judgement. People need to fell comfortable in the process and one needs to have empathy. Therefore communication skills are very essentials to a Sexto situation.
