Sexto response kit 2 - Architecte

Description:

For legal reasons, the use of the SEXTO kit is reserved exclusively for Quebec's education sector personnel. In addition, its use must be the subject of a prior agreement between the police force that serves the territory where the school is located and the Director of Criminal and Penal Prosecutions (DCPP). Please note that an attestation badge will only be attributed to personnel at education institutions in a territory where such an agreement has been concluded. Before completing the training program, it is therefore recommended that you validate this information with your superiors or your police force...

Sexto response kit 2 - Architecte

Question 1 - How can I summarize the steps of the Sexto method?

Be supportive and non-judgemental. Fill out the incident evaluation grid with the person reporting first then again with any other involved party, individually as a way to verify the information, make sure to protect the identity of any student who provided information. Avoid looking at the pictures if requested. If a student is non-compliant or malicious, immediately involve the police. Confiscate any device containing child pornography. Once the intervention is done communicate with the police department as soon as possible. Inform the child's parents as soon as possible, explain the situation, the protocol and next steps. Bring the situation to the attention of the DYP.

Question 2 - What have I learned from the three situations presented?

The evaluation grid must be filled by the reporting person first and then any other involved party, individually. If the situation does not concern only students from the school, as in the second example with the 19 year-old, it is not a situation for sexto and must be referred to the police. If there is malicious intent, confiscate the device and immediately inform the police, do not attempt to fill out the incident evaluation grid.

Question 3 - Which step do I find the most delicate when applying the Sexto method?

Informing the parents. As with any case involving teens who confide in me at work, I always find difficult the situations where I must break confidentiality to ensure their protection.
