

Preuve et attestation de développement professionnel

Sexto response kit 2 - Architecte

Description:

For legal reasons, the use of the SEXTO kit is reserved exclusively for Quebec's education sector personnel. In addition, its use must be the subject of a prior agreement between the police force that serves the territory where the school is located and the Director of Criminal and Penal Prosecutions (DCPP). Please note that an attestation badge will only be attributed to personnel at education institutions in a territory where such an agreement has been concluded. Before completing the training program, it is therefore recommended that you validate this information with your superiors or your police force...

Sexto response kit 2 - Architecte

Question 1 - How can I summarize the steps of the Sexto method?

Stop the spread immediately. Isolate devices in SEXTO bags without viewing, downloading, or forwarding the intimate images.

Fill out the standardized SEXTO evaluation form to assess the severity and determine the right course of action.

Support the victim empathetically without judgment, and notify parents/guardians using the official protocols.

Hand over the completed grid and secured evidence to law enforcement/school resource officers according to local guidelines.

Provide post-incident support, reinforce digital safety and consent, and restore a safe school environment.

Question 2 - What have I learned from the three situations presented?

I learned that while immediate containment and device security protocol remain consistent in every case, using the SEXTO evaluation grid allows us to adapt our response to the specific context—balancing student emotional support, parental communication, and police escalation based on severity."

Question 3 - Which step do I find the most delicate when applying the Sexto method?

The concluding stages lacked operational clarity, rendering the chronological order somewhat ambiguous. In contrast to the initial exercise—which relied primarily on intuitive reasoning and common sense—these subsequent steps were strictly procedural and adherence-driven
