

Preuve et attestation de développement professionnel

Sexto response kit 2 - Architecte

Description:

For legal reasons, the use of the SEXTO kit is reserved exclusively for Quebec's education sector personnel. In addition, its use must be the subject of a prior agreement between the police force that serves the territory where the school is located and the Director of Criminal and Penal Prosecutions (DCPP). Please note that an attestation badge will only be attributed to personnel at education institutions in a territory where such an agreement has been concluded. Before completing the training program, it is therefore recommended that you validate this information with your superiors or your police force...

Question 1 - How can I summarize the steps of the Sexto method?

Meet with the person who has brought forward the case. Thank them for bringing this to your attention and make them feel like they are part of the solution and that this is going to help. Gather the information from the person bringing in the case. Fill out the grid gathering facts and not judging. Find out if others are involved or aware. Speak to everyone who is involved or who have seen or have the images. Fill out the grid with each person you meet with. Meet one at a time and focus on maintaining the privacy and integrity. Talk with young instigator. Determine the next step which could be calling the police and also possibly confiscating the phone.

Question 2 - What have I learned from the three situations presented?

Every situation is different and this is why meeting with each person involved and filling out the sexto intervention grid with each person involved is important. Each person can bring new information and it also help determine how much the image has been distributed, the nature of the image and if it is an act of malice or not. When the school is involved and it can have an impact on students and the school community we must act and contact the police.

Question 3 - Which step do I find the most delicate when applying the Sexto method?

Meeting with the instigator. You must remain objective and neutral as you are not there to be accusing but to continue to gather information and ensure everyone's safety. It is difficult to demand that a student hands over their phone and it is never a good feeling to have to call the police to intervene and investigate any student.
