

Preuve et attestation de développement professionnel

Sexto response kit 2 - Architecte

Description:

For legal reasons, the use of the SEXTO kit is reserved exclusively for Quebec's education sector personnel. In addition, its use must be the subject of a prior agreement between the police force that serves the territory where the school is located and the Director of Criminal and Penal Prosecutions (DCPP). Please note that an attestation badge will only be attributed to personnel at education institutions in a territory where such an agreement has been concluded. Before completing the training program, it is therefore recommended that you validate this information with your superiors or your police force...

Sexto response kit 2 - Architecte

Question 1 - How can I summarize the steps of the Sexto method?

Speak to the victim and person who gave the information, evaluate the incident and verify the information by interviewing all people involved. Once that is done, if the event is malicious, the device of the perpetrator has to be confiscated and given to the police. If the incident was not malicious, the SEXTO protocol continues with the person who received/asked for photos. Once the intervention is complete, the police are contacted if it was malicious or an instance of child pornography. If not, an internal report is filed with school. The police may follow up by educating the students involved or investigating, depending on the information received.

Question 2 - What have I learned from the three situations presented?

I learned that interventions can take many pathways and it is important to be prepared for all of them. I learned the checklist should be consulted as there are so many ways the information can change, even over several days or weeks, making it harder to remember protocol.

Question 3 - Which step do I find the most delicate when applying the Sexto method?

The most delicate step is interviewing potential witnesses as it is important the emotional wellbeing of the victim be preserved. To do this, ensuring you only interview who is necessary is important. Also, confiscation of the device can be difficult as a student may not want to hand it over.
