

Preuve et attestation de développement professionnel

Sexto response kit 2 - Architecte

Description:

For legal reasons, the use of the SEXTO kit is reserved exclusively for Quebec's education sector personnel. In addition, its use must be the subject of a prior agreement between the police force that serves the territory where the school is located and the Director of Criminal and Penal Prosecutions (DCPP). Please note that an attestation badge will only be attributed to personnel at education institutions in a territory where such an agreement has been concluded. Before completing the training program, it is therefore recommended that you validate this information with your superiors or your police force...

Badge attribué à : James Vandenberg

Sexto response kit 2 - Architecte

Question 1 - How can I summarize the steps of the Sexto method?

Here is how I would summarize the steps of the sexto method: Step 1) Talk to and support the person reporting and to the victim. 2) Evaluate the incident using the Incident Evaluation Grid to determine the trigger, nature, intentions, and extent of the incident. 3) Verify the information by speaking to the other people who are involved, one at a time, while protecting the privacy of the author and the victim. If the incident appears to be a malicious or criminal act, we contact the police, do not complete the evaluation grid with the instigator, and confiscate the device of the instigator. The police will then take charge of the investigation. However, if the incident appears to be an impulsive act, we 4) complete the incident evaluation grid with the instigator as well to get their version of events. If I determine the incident to be malicious or criminal at any point, I contact the police as in step 3. If the incident appears to be impulsive, I then would contact the parents of both the instigator and the victim and the DYP if necessary. However, at the end, we should still contact the police at the end of the intervention.

Question 2 - What have I learned from the three situations presented?

I've learned that the sexto method has been developed to apply to almost any situation that could arise from the impulsive or malicious use of sexting. The methodical, systematic process can reassure all of those involved of the seriousness of the situation, as well as the transparency and fairness of the intervenors/investigators.

Question 3 - Which step do I find the most delicate when applying the Sexto method?

The step that I find most delicate is interviewing the instigator. The youth who has committed the act will likely not be forthcoming for fear of consequences and judgement. There is a lot of shame attached to unfortunate decisions for both the victim and the instigator, so it might be the case that the victim would be hesitant to cooperate as well, but the added layer of fear for instigators will require patience and objectivity that can be challenging.
