Integrate three pedagogical practices related to C1 as soon as I come back to school. Identify your actions and explain your choices.

- Integrating games to encourage interactions
- More modeling and scaffolding in my teaching (including more visual cues, functional language, strategies)
- Self-evaluation and peer evaluation with the rubrics used in class

Experiment two new concepts learned in the workshops in the next school year. Identify the new concepts (one for each workshop) and name the changes required to make these changes.

- Including board games. Organizing stations to have all students engaged in learning.
- Using the "wheel of names" to have students focus on the strategy that is spun.

Develop a better understanding of one element that was discussed during the day. Name the element.
